Wawel is one of the most famous producers of sweets in Poland. The history of our brand dates back to 1898, when Adam Piasecki founded his first confectionery in Krakow. To this day, our products are a symbol of *royal quality and noble taste.*

The excellent quality of Wawel sweets and the safety of manufactured products are our top priority. Currently, our production takes place in two ultra-modern production plants, equipped with world-class technological lines that meet the safety and quality standards required for food production.

From the very beginning, we have focused on the production of excellent quality products, the taste of which is known and appreciated by many generations of Poles. Malaga, Tiki Taki and Kasztanki as well as dark chocolate are iconic products that have been made by our company for decades. However, we are constantly expanding our product lines, meeting the needs of the most demanding fans of sweets. Today, consumers are also very interested in sweets that we have created over the last few years, Królewskie Mleczko, Tofflairs and Fresh&Fruity are the best examples of this. Royal taste and excellent quality are what make Wawel sweets stand out from the rest.
